

Rui's v1.0 brief — before and after

The brief and four target layouts (30 Sep) against the portal on branch e/brief, 1 Oct 2026.

Result: 41 items. 36 done, 4 partial (each with a reason), 1 conflict to decide.

36 items are done; four remain partial for their stated reasons, and one conflict needs Rui's decision.

Already as the brief asked

The unchanged items that are done are G-1, G-2, G-4, G-7, G-8, OV-4, OV-5, PR-1, PR-4, PR-6, SO-1, SO-2, SO-3, SO-4, SO-5, SO-7, SO-9, AD-3, AD-4, and AD-8.

Decisions for Rui

AD-5 semester conflict. Semester tabs need a date on outputs; RIMS has reporting year only.

Muted text. Keep #6A6862, not #888680: #888680 fails WCAG AA on the page background.

CK-1 Sanity site. Hugo is the site; Sanity test project `1d5jh23` and Studio exist, with push per person. There is no Sanity-backed website: the agency's site reads its own project.

SO-6 venue. There is no venue data because RIMS stores no venue field; this is out of scope.

One look, one behaviour

Before, 3 of 29 signed-in routes used the design-system frame (DsPage), with competing DetailBody and PortalPage frames plus bare pages. After, every signed-in page uses the same sand-background, 1100-wide, 24-padding frame and opens with the same title card; PortalPage is DsPage, and the listed pages moved into it. The sidebar is navy #16213A, with Inter and Segoe UI fallback.
